

I have been a professional photographer for over 30 yrs. Photography is my passion in life.

I started my photography in high school learning the basic about photography the different films to use for different types of photography.

Il owned my first photography business in 1976 called natural light photography.

My work was with black and white film doing nature photography and natural portrait work out side. It was a very successful business.

I n 1977 I started doing concert photography which was also successful

I did all of my images in my studio dark room.

Now I do all types of photo work from web pages to selling my work as fine art, portrait work.

My work is from Costa Rica. Brazil, Mexico, Louisiana and Alaska.

In Costa Rica I teach and do photo tours.

You can view my work @ www.davidroyfultonphotography.com and on my face book account
